

ANACO **Supply**

INDUSTRIAL SERVICES

RIF J-08002985-2

Who We Are

Anaco Supply is a strategic partner to the energy and oil industry, with its base of operations in Anzoátegui State.

We specialize in comprehensive solutions for temporary infrastructure, logistics support and highly reliable technical maintenance.

We support the continuity and efficiency of your projects through the rental of tanks with **500 barrels** of storage capacity and power generation equipment, complemented by specialized metalworking, welding and surface protection services delivered to the highest quality and safety standards required by the oil and gas sector.

Our Services:

- ✓ Transport
- ✓ 500-barrel tanks
- ✓ Diaphragm pumps
- ✓ Welding trucks
- ✓ 500-barrel tank rental
- ✓ Diaphragm pump rental
- ✓ Welding service transport
- ✓ Tractor-trailer transport with flatbed, platform and winch
- ✓ Diaphragm pumps ("paca paca")

Our History:

Over 50 Years of Industrial Evolution

Our history reflects a constant adaptation to the challenges of the Venezuelan energy industry. What began as a local venture has grown into a pillar of operational support for the country's oil sector.

1973 | Origins and a Practical Vision

Founded by Mr. Jack Viera as a commercial hardware store, the company quickly recognized the potential of the energy sector and began specializing in the supply of valves and flow measurement equipment for oil and gas.

1999 | Strategic Specialization

Anaco Supply specialized in temporary infrastructure and field logistics for operators and oilfield service companies, laying the foundation for the rental and logistics services it provides today.

Operational Growth and Diversification

We strengthened our field logistics with a company-owned transport fleet (tractor units and welding trucks) and expanded our solutions with the rental of critical equipment such as diaphragm pumps and cutting boxes for drilling sites.

Today: The Value of Our History

With more than five decades of uninterrupted operation, we combine stability with continuous improvement. We keep diversifying our services and strengthening our technical capabilities to be the most reliable logistics and operations partner for the national industry.

Quality Management System (QMS)

Under International ISO 9001 Standards

At **Anaco Supply, C.A.**, our Quality Management System follows the guidelines and requirements of the international **ISO 9001** standard, ensuring operational effectiveness, continuous improvement of our processes and guaranteed customer satisfaction.

We design and deliver every service through an integrated strategy that combines our certified people with state-of-the-art technology and equipment, always operating in strict legal, regulatory and safety compliance.

Quality Objectives

(Performance Metrics and Indicators)

To ensure the effectiveness of our QMS, we set and review the following performance targets every year:

● **Service Excellence:**

Achieve and maintain a sustained customer satisfaction index, with an annual target equal to or above 90% ($\geq 90\%$).

● **Regulatory and Technical Compliance:**

Guarantee 100% conformity and compliance with the legal, technical and safety framework applicable to each of our industrial and oilfield services.

● **Operational Efficiency:**

Optimize the value chain to reduce the response and delivery times of our services and infrastructure by 5% per year.

● **Environmental Responsibility & Resilience:**

Identify, assess and mitigate 100% of the environmental and climate risks and impacts associated with our field operations every year.

● **Training and Technical Competence:**

Ensure that 100% of our staff receive at least 8 hours of specialized training per year in quality, industrial safety (HSE) and sustainable practices.

Quality Management System (QMS)

At **Anaco Supply, C.A.**, we see our work as the engine that drives and supports the country's major industries.

Our philosophy rests on the conviction that operational excellence, strict legal compliance and environmental responsibility are not just requirements, but the unshakable foundation of our service.

We believe that work done well is the best guarantee of growth, both for our organization and for our strategic partners. That is why we approach every maintenance, equipment transport and construction project with a focus on resource optimization, social synergy and an absolute commitment to delivering reliable, safe and immediately available industrial solutions.

Mission:

To deliver comprehensive, reliable and safe industrial solutions that drive the operational continuity of our clients in the energy and oil sector.

We are committed to guaranteeing the highest quality, strict legal compliance, optimal use of resources and environmental protection in every project, backed by a qualified team and state-of-the-art infrastructure that ensures the immediate availability of our services.

Vision:

To be the leading company and the most trusted benchmark in industrial services, logistics support and temporary infrastructure supply in Venezuela. We aim to be recognized for our operational excellence, technical innovation, unwavering commitment to safety and active contribution to the sustainable development of the country's industrial and energy sector.

Our Corporate Values

The identity of **Anaco Supply** rests on pillars that define our organizational culture and guide each of our operations in the oil industry:

Integrity:

We act with integrity, ethics and transparency, honoring every commitment with honesty.

Creativity:

We design innovative, efficient solutions to overcome technical challenges and optimize processes.

Service:

We focus on providing personalized, timely, high-quality attention to ensure customer satisfaction.

Leadership:

We lead our sector with determination, driving standards of excellence in every service.

Commitment:

We are dedicated to the success of our partners and to national development, ensuring their operational continuity.

Teamwork:

We work as one team across field operations, logistics and administration to deliver every service safely and on time.

Health and Safety Policy (OHS)

At **Anaco Supply, C.A.**, protecting the lives and health of our workers is our absolute priority.

We are committed to preventing occupational accidents and illnesses, ensuring a safe work environment in strict compliance with Venezuelan law (LOPCYMAT) and industry standards.

Key Safety Objectives

-  **Legal Compliance:** Guarantee 100% conformity with LOPCYMAT and current technical regulations.
-  **Monitoring and Prevention:** Continuously monitor staff health and assess risks in every operational area.
-  **Resource Allocation:** Provide the technical, financial and human resources needed to carry out safety plans successfully.
-  **Continuous Improvement:** Systematically improve working conditions across all our operations.

Regulatory Compliance and Guarantees

To ensure transparent, safe operations in full compliance with national law, **Anaco Supply, C.A.** keeps all its statutory certifications, licenses and financial guarantees up to date:

Legal Qualification (RNC):

Registered and in good standing with the National Registry of Contractors (RNC), which qualifies us technically, legally and financially to contract and carry out projects with the State and the industry.

Authorized Environmental Management (RACDA): RACDA No.01-13-02-03-2026-957 ANACO SUPPLY CA J08002985-2. We hold a current registration for Activities Capable of Degrading the Environment (RACDA), issued by the Ministry of People's Power for Ecosocialism (MINEC), authorizing us to operate under strict environmental protocols.

Asset Security and Protection (Equipment Insurance):

All our tools, machinery, power plants, transport units and storage tanks are covered by comprehensive insurance policies, minimizing operational risks and fully protecting our clients' investment throughout the services.

Our Clients and Strategic Partners

At Anaco Supply, C.A., we are proud to have built solid, long-term relationships with the most demanding companies in Venezuela's energy, oil and environmental sectors.

Their trust is our strongest seal of quality.
